Our illuminating revelations
Have exquisitely failed.
In their own and in most unhappy ways.
We say a little prayer for those
Who foolishly have prayed.
And hope the very best for him who prays.
Expression and impression
Birth have been his lacked lot.
And now they have stopped their imitation.
With humble procession
Be they ever so accessible, and yet live.
There are three across the campus
Who would formally address
The critical forum.
Of our former council men.
In an attempt to influence their battered career
Of their Western Parkers dive and gawking dogs.
Literal vapor sprayed, to with rare incantation
And now they're only chosen Boston campus laureats.
Vocalism is disapproving.
But if we should choose that you prefer
A Watchful Ear
To a hostile article.
Of English and of youth.
That more be spring from easter palms
That we may here walk.

SUNDAY SPORTSMEN

The Long Branch and Fairview Committee has at last had positive in a plan for Sunday plastering. From this we learn that the attitude towards Sunday sports has undergone considerable change since the last meeting of this committee. The emphasis of the committee was upon the necessity for making public interest in sports known. The committee have considered the possibility of starting a Sunday sports club, but have decided against it.

The number of students who have volunteered to help in the work will be determined by their interest in sports and their willingness to devote some time to the work. The committee are looking for people who are willing to work on a regular basis.

OPEN FORUM

As you know, the student council is currently discussing the possibility of starting a Sunday sports club. There is a great deal of interest in the idea, and many students are expressing their support. However, there are also some concerns about the feasibility of the plan.

The main issue that has been raised is the question of whether or not the college can afford to support such a club. Some students have pointed out that the cost of running the club would be substantial, and that the college may not have the resources to cover the expenses.

Another concern is the potential impact of the club on the student body. Some students are concerned that the club could create a sense of exclusivity, and that it might alienate those who are not interested in sports.

The committee is currently weighing these concerns and will be making a decision soon. We encourage all students to voice their opinions on this issue, and to participate in the discussions.

THE ISSUE PUT

Just what the action of the Faculty Committee on Athletics will be is not at all certain. But one thing is certain, and that is that the committee is determined to see that the conditions of the athletes are improved.

The committee has received numerous complaints from athletes about the conditions in which they are forced to work. These conditions include poor pay, lack of facilities, and a general lack of support from the administration.

The committee is determined to see that these conditions are improved, and they are willing to take whatever action is necessary to ensure that the athletes receive the support they deserve.

ARE YOU A FOREHEAD WRINKLER?

Jangled nerves show in your face
Of course you don't want to look older than you are. That's one reason it's so important to watch your face. You don't want to be seen as aging prematurely.

For remember, jangled nerves come from your face indelibly with lines.

COSTLIER TOBACCO

Can't afford names from more expensive tobaccos than any other popular brand of cigarettes?
