FRANKLIN COLLEGE’s Baseball team has won six straight games, a feat not previously achieved by Franklin. The victory over the University of Pennsylvania was particularly significant because the game was held in Philadelphia, where the team was not expected to perform well. The team has moved up in the National League rankings, and their next challenge is against the University of Chicago, who are considered one of the top teams in the country.

SHALL WE FIGHT?

No doubt shall ring the banquet hall of Sweden, no more doubt the words shall ring out with hearts that beat with beauty and a mind that will not flinch. Present to mind a banquet hall with the crack of arms, the clashing of steel, the whooping of the battering ram. Present to mind the crack of arms, the clashing of steel, the whooping of the battering ram. The banquet hall shall ring with the words, "We shall not fight!"

"Shall we fight?"

The words shall ring out with the crack of arms, the clashing of steel, the whooping of the battering ram. The banquet hall shall ring with the words, "We shall not fight!"

The hills are safe, the battle is over, the war is ended. The banquet hall shall ring with the words, "We shall not fight!"

Are you A KEY JUGGLER?

Watch out for the signs of jangled nerves

You've noticed other people's nervous habits—wondered probably why such people didn't learn to control themselves.

But have you ever stopped to think that you, too, have jangled nerves? The key jangle or jingle are you. Not more important than those habit ants are a sign of jangled nerves. And jangled nerves are the signal to stop and check up on yourself.

Get enough sleep—fresh air and exercise and watch your smoking. Remember, you can always smoke the last cigarette as you want. Their costlier tobaccos never jangle the nerves.

The way tobacco is cut has a lot to do with the way Chesterfield burns and tastes.

There are many different ways of cutting tobacco. A long time ago, it used to be cut on what was known as a Pea Cutter, but it's name was changed because it was found that the way the tobacco was cut and how it was cut in long shreds.

The tobacco in Chesterfield is cut right—you can judge for yourself how Chesterfield burns and how it tastes.
