Peace Speakers Say Knowledge Needs Emphasis

As a response to a "Direction Of Emotions By Straight Thinking"

DEMONSTRATION IS "IDEALLY" F说法

to make audio listeners "peacemakers" and influence the course of peace in the world, the Boston Peace Conference and the Committee of 100 held their last demonstration yesterday in Washington. The purpose of the demonstration was to call attention to the need for more effective measures to prevent war and to promote international understanding.

The speakers included many well-known peace activists, such as Jane Addams, Mohandas Gandhi, and Albert Einstein. They urged the adoption of peaceful methods to resolve international disputes and the reduction of tensions between nations.

This event was part of a larger campaign to promote international cooperation and understanding through non-violent means. The speakers' words echoed the principles of non-violence and the importance of knowledge in shaping a more peaceful world.

THE BATES STUDENT
WEDNESDAY, APRIL 17, 1945

Elected To Serve

IN THE last issue of the student newspaper the new Council President made a statement to the effect that he hoped the student body would "set fire to the judgment of the public on Bates". In our opinion this is one of the best messages that could be conveyed to the students. We feel that the students, when they have come to understand the work that they have to do, will be able to set fire to the judgment of the public on Bates. We feel that this is a good message and that it is one that should be kept in mind by all students.

The Retiring Editor

BY LESLIE AUGUST

As We Begin

IT IS customary for the new leadership of any undertaking or institution to step into control with great ambitions. This is one of the effects of the new leadership. When we have come to understand the work that we have to do, we feel that we can set fire to the judgment of the public on Bates. We are, of course, not the only ones who are interested in the work that we have to do. There are many others who are interested in the work that we have to do. We are, of course, not the only ones who are interested in the work that we have to do. There are many others who are interested in the work that we have to do.

The campus literary publication has a brand-new set of contributors. The new staff is composed of a group of men, who have been elected to the undergraduate body, who are interested in literature and writing. It is our hope that the publication will be a success.

By Gale Freeman

The States Grabbing Off Federal Funds

When the PEA law was passed by the Congress in 1935, Federal funds were made available to the states for the purpose of helping to finance educational institutions. The states were given the opportunity to accept the federal funds and to use them for the purpose of financing educational institutions.

Eloise

An Appreciation Of Bates

The other day someone told us that a commonly held view is that Bates is a first-class institution. The Bates student is, indeed, a first-class institution. He is a first-class student. He is a first-class citizen. He is a first-class citizen.

I am your Lucky Strike

I am always the same...always mild, fine-tasting and fragrant. I am made of center leaves, only. The top leaves are undeveloped, raced and biting. The bottom leaves are gritty, tasteless and harsh. I am made of only the fragrant, expensive center leaves. I give you the mildest, best-tasting smoke. I do not irritate your throat. I'm your best friend.
SPORTS SHOTS

BY BOB BAUNDES

Once more the football managers will be clearing off the jenies and starting the cheer leading. With the fall to be the major part of the spring off is over. Last Friday the two squads were put through a scrimmage in an effort to test the efficiency of the team and the work of the men in the scrimmage very promising. Besides giving the coaches a chance to look over the two squads, the two squads competed with Smirnoff proving a great help there was a considerable amount of new plays given. There will be a small report for the most part game and should be something for fans to look out for next fall. It will be put up in a way that will follow up the new offense started last fall.

Among the new men on the team is Joe Biernacki, Don Gautier, Joe Maloney, Max Eaton, Ted Wellman, and Burt Morin, and Carl Amrein doing the work of several of the men in the scrimmage. Paul Bergey and Harold Spinks have charge of those that showed up well.

A big "if" faces the Bates track team. That "if" is in the person of Harry Keller, extraordinary sprint and broad-jumping man. If Keller's injured foot does not respond to treatment he will be a hard man to beat. Anything over a half mile in the broad jump is a necessity that if Kramer wishes to retain his place on the second team he must be at his best. Too much can pot be said for the "if". In most Events

The musical play "The Man Who Married A Cloud" opens to-night. The curtain will rise on the 1935 play season. George in the famous comic role of Tom is played by Ray Raymond, the man who married a cloud. All the New Spring Styles in Smartly Styled Shoes

Here is the chance to get a new look. With the Easter season just around the corner, don't you think it is time to dress up for the Big Parade? Better come in and pick out your apparel before it is too late.

\textbf{Lack of Second and Third Men Is Handicap}

The tennis season will soon be in full swing. The pictures are working well at present, and five individuals on Bates will have reasonable chances of winning the spring singles and doubles, but more players on the second and third men would make the side much stronger. The seed positions are being determined, and the tournament two men from each school, and the Macdonalds, who are two of the stars, were dropped to the second doubles. The new men that are about to take the field this year are much stronger than the previous ones, and are more likely to be able to shake up the old guard.

The starting pitcher will be Royce Purinton, who tied a world's record at the old tandem formation, Cutts and evidently were really great playing men, and are of more value to the team than the batting. The back field men, who were retained, is a necessity that if Kramer wishes to remain on the second team, he must be at his best. Too much can pot be said for the "if". In most Events
