Freshmen Meet Kents Hill In Final Game

Strong Prep Team Loses As Only Obstacle To Undeclared Record

In their last and probably the hardest game on their schedule, the Bates Freshman Football team met Kents Hill on the latter's home court Friday evening. Although victorious with the Hill Preppers and are being dubbed which opened festivities against and are out to show the "college boys" since that game, Kents Hill has been more or less miserably in their open-encountered here a month ago. Coach they are determined to get that boost.

Organized Junior Campaign Successes In Nominations

Campus Opinion: Re Supreme Court

“Nine old men” are the cavalry. Plans have been made and discussed to take “six old men” for a ride—a ride into forced retirement. Meanwhile, the plans themselves, pro and con, are being written on the front pages of the daily press.

Naturally enough, newswriting hymnals also have taken sides on the matter and college men too presumably are for or against the President’s court-scheme, wherever, on reaching the age of 70 after serving ten years in the court, failed to resign. Under this plan, Roosevelt, who under the Constitution, would appoint the new justices with the approval of the Senate, and the President would not so grasp the reins as to destroy the dominant character of the court from conservative to liberal.

This scheme, to be sure, is only one point in a four-topic program, but it is the point to which strong objection is raised. As the first news of the President’s plan had been announced on an important occasion, the plans were immediately attacked in the Philadelphia Record, the New York Tribune, and other newspapers.

Since the first reactions, other groups have crystallized their opinion and made it known to the general public. Unofficial polls of the Senate were the feature of last week’s bill-banding. Lately, lawyers gave organized opinions on the plan, with the New York City Bar Association, the Chicago Bar Association, the Association of the Bar of the City of New York, and the American Bar Association, opposing the President.

Outrageous, some groups have prevailed through various arguments, some that can and others that cannot, have been made, each side in the struggle to make its case heard.

But, however, college groups have not been heard from. Here on our campus, a few informal discussions and even ball sessions have argued the matter and at least one talk has been given in Chapel about it. Plenty of explanations have been written through our columns that we can and others argue as to which side in the battle to see for the students to crystalize their stand on the issue.

This week’s campus opinion question on the Supreme Court. The ballot will be found on page 8. Please fill it out immediately.
