Preston Voted Defensive Center First

Defensive Center First work, is the first football captain elected since Coach Dave Morey came

Last fall he was applauded as the first woman to graduate from the Maine Central Institute, is filling the director of dining rooms and dormitories at Columbia University. She studied institutional management at the University of Denver and Colorado University.

Martha Collis, former city clerk of the Elmira, N. Y., Board of Education, has been appointed as the new city clerk of the State University of New York at Albany.

Dietitian Suggests Manures Remedy

Since the last issue the students at Bates College have been holding regular meetings to discuss the question of manures. The first meeting was held in the Physics Building, and was attended by a number of students.

14 States Represented at 19th Summer Session

Students from 14 states who have been enrolled in the summer session at Bates College were represented at the 19th session, which was held in the summer of 1938. The session was attended by a number of students who have been enrolled in the summer session at Bates College.

Frosh Success at Up to Student Pres. Gray

College Success

"Frosh success at Up to Student" is a program sponsored by the Bates College Student Union. The program is designed to provide opportunities for freshmen to become acquainted with the college and its facilities. This year's program featured a variety of events, including classes, workshops, and social activities.

Width of Budget

The size of the budget for the 1939-1940 academic year has been increased from $1,200,000 to $1,500,000. This increase is due to the need for additional funds to support the expanding educational programs at Bates College.

As it was in the beginning...
Changing Identities

A WELCOME TO FRESHMEN

With Tuesday's registration, the identities of nearly 250 were changed again—this time from high school graduates to college freshmen and freshman women.

Now that at least two freshmen have asked seniors, or perhaps juniors, what their letters mean, they are in "J." but that fresh hats and ties have been bought, fresh hair embroidered, and salmon-colored childish frills flung upon noses, the business of changing yearlings' identities have been notably noted for the second time in the class of 1941.

All week you, freshmen, have been standing up as statuesque, ambitious, inquisitive, fast (or slow) on the uptake, good characters (only), promising athletes, O. K. "newly" recruited. The reason is because, for the first time since your previous training and associations at home and school, the coming of the fall semester will require you to make your own plans and decisions.

What about four years from now? It's hardly too early to begin thinking about then, because every move you make, every lesson you learn, will be an important basis for your future. Every move you make, every lesson you learn, will be an important basis for your future professional positions or graduate schools.

Cooke's Tackle Nails Burligar

Frost an Iceman, Preston Bell-Hops Getting in Shape for Football

Charley Cooke's flying tackle of a Lewiston-Hall-Dale backfield on the gridiron was a running play for a touchdown during the evening. Cooke, who was the star of the game, was running with the ball through the tackle and caught the ball, turned him over, and took him to the line.

Bob Frost, backfield, had been a very tough guy to stop during the game, but he was finally able to get past Charley Cooke. Cooke had been a key player in the win, and the team is now looking forward to the upcoming season.

Edmond's, Ohio, prospect is exciting the athletic world, as he is a consistent flat-passer and has a good deal of action against Coach varsity. He is a hard man to keep ahead of.

The Maine Central Institute game scheduled for Oct. 30 at Boston is expected to be a close contest, with both teams vying for victory. The outcome will be determined by the performance of the players and the strategies employed by the coaches.

The Phillips Exeter Academy team is expected to be a formidable opponent, with their star athletes who graduated in June, and the council voted for the first time in the traditions of the school. They have been selected by Prof. Leslie H. King, Omar King, and Trenor F. Goodell, Jr., Junior Manager, who is at this position.

The highest service award is to be given to the winner of the most restful ever conceived. The Parker pen, made by the Parker pen company, is the new all-time high in ink supply, and it shows when to refill the speedline pen. The Revolutionary Pen That Won't Run Dry. The Parker pen company.

Germans Denounce War, Harms Tells Wiarian

Denouncing war as the last thing the Germans would want, but hinting that Hitler may force it in the future, Prof. Hannes Harms, visiting Bates from Germany for his dissertation, described his visit to the Nazi regime and the way it controlled the country during his stay. He was accompanied on his trip by Charles Harrington, ’38, who is to be his assistant and associate in his work.

1. As to Hitler himself, what would happen if he were shot?—"He would find it hard to rule."

2. Where will Germany get all the food they need?—"The country is self-sufficient in grain."

3. Will Germany all the food they need?—"The country is self-sufficient in grain."

4. Why "I don't say they are good—just as good as we are, but we are conservative in them..."

The speaker said that the German people realize that they are going deeper and deeper into war and that the only way to stop it is to rid the country of the Nazi regime once and for all.
