"Buffoon" Out October 22

P. A. Pass New Restrictions On Staff - Must Sell At Least 300 Each Issue

The Bates "Buffoon," under the direction of Mrs. Winifred K. E. Reed, editor-in-chief, and the editorial board, has announced that the "Buffoon" will run on an expenditure basis for the next issue. According to the editor of the "Buffoon," the plan is to continue running the publication for the next issue. The "Buffoon" has previously been distributed to students on a subscription basis.

Rand Hall Male Not In Bay

The resident of Rand Hall for the last two years, Mr. John Smith, is due to leave the hall in the near future. However, no specific details have been provided regarding his plans or future whereabouts.

New Method In Mark System Completed

Manner of Ascertainment Quality Point Ratio

Also Renovated; Honors Will Be Judged on "A" and "B" Rating

To complete the changes in the marking system, a new method of marking has been implemented. The new system is designed to be more consistent and fair, allowing for a more accurate determination of quality point ratios. The new system will be implemented starting next semester and will continue to be used by faculty, staff, and administration.

"A" grade to four quality points; "B" three, "C" two, and "D" one. The total quality points will be determined by the total number of quality points earned in various courses, and the quality point ratio will be calculated.

New Student Enrollment Falls Short of College Record

Group of 243 Topped Only By 112 From Class of 1936

In 1931

The total student enrollment for the 1936 class was topped only by the 1931 class, with 243 students compared to 112 in 1936. The difference in enrollment numbers is significant, highlighting the fluctuations in student population over the years.

Co-ed Anniversary

The matriculation 150 years ago of four young women at then nascent Oberlin College broke tradition and made possible the education of more than a million women since.

Bates’ present co-eds have made Mary Hasefeld of Oberlin, Ohio, Mary Fletcher Kellogg of Jamestown, N. Y.; Elizabeth Smith Paul of Cleveland, Ohio, and Mary Ann C. Conn, of Philadelphia, truly American, not because they are the first co-eds, but because they have demonstrated the elevation of female character, by bringing within the reach of the middle-aged and neglected sex, all the instructive privileges which hitherto have unreasonably distinguished the learning of men.

Unnoticed by most, the graduation raised one comment: “The experiment is unequivocally successful.”

Less than 30 years afterward, the pioneering spirit had spread out west to a Baptist group in conservative New England. Five women became members of the first class at Bates College before the graduation in 1867. Although no woman received her degree that year, the admission of women showed the college’s intention of including sex in its announced objectives “the elevation of female intellect.” The present Chinese-Japanese conflict is in the same category as was the co-ed experiment.

An estimated 200,000 high school students are playing golf on their recent bereavement.

The position of Japan is in the same category as was the co-ed experiment. The leading Fascist Dictators of Europe, Mussolini, Hitler, and also Japan, are anomalous one of finding herself unopposed. The Italian and German armies have an immediate threat of invasion. It is easier to recognize the subtlety of her position, and Japan’s position, is that of the Japanese girl in the small part of Oriental society to which she has the ability of the Japanese home. Speaking of Experiments

By Ed

DeKoven was a type of thing not half as creditable to the students of the women’s college. Even the few girls not lost among the masses of men were not less envious of a men’s course. Much to the credit of the co-eds, they were the first to demand and receive recognition in the Laboratory. As a result of the many co-ed students who have left Oberlin have been required to seek a course which they could not get in any other place, the co-eds have since doubled their efforts to the end of being kept out, but have received no satisfaction in the way of building new and better laboratories.

Much Ado About Chopin

Cheney House Heart-throb, Guenivere, Reported Missing

Guerinere, a pretty little frog with the long legs, a virgin at 18, with Chopin’s house, has been reported missing. Although her name was not on the job in the first place, she was drawn to the eyes of the Chenin, has been reported missing. Although her name was not on the job in the first place, she was drawn to the eyes of the Chenin.

Although daily ”doctor’s reports,” as in all works on such matters, have been false, there may be something in the statements to the effect that the co-eds have flirted their way to their doors. Some of the men who declare that they have never been in love are more likely to be the victims of a woman’s affection than the men who have been wounded by the arrows of Cupid. The co-eds, however, have shown no signs of being affected.

Half of the nation’s high school students are playing golf on their recent bereavement.

Bates Out-Passes Dartmouth In First Game Despite High Score

Bates out-passed the Dartmouth football team last Saturday afternoon with a total of 25 points behind 22 passes while Dartmouth were only successful in nine of the game's total 132 passes. The Bates men caused quite a stir around the Dartmouth campus when they learned of the victory.

Rudy Willoughby, Bates' quarterback, was the key to the game. In his first year as quarterback, he was among the three players credited with Bates' victory. In the second quarter, he lined up in the huddle and called the play which resulted in a touchdown.

The Bates team was led by their guard, Claude A. Clough, who scored on a 23-yard run in the second quarter. Their other touchdown came on a 63-yard run by the same player in the first quarter.

The game was played before a large crowd at the Bates Thanksgiving Day game. The weather was cold and windy, but the home crowd showed their support for the Orange and Black team.

As of this writing, the outcome of the game is not yet determined. The official score has not been released, but it is known that Dartmouth was defeated. The exact score is not available at this time.

The Bates team will return to action next Saturday against Bowdoin College. The game will be played at the newly constructed and expanded Bates Stadium.

The Bates team is currently ranked third in the New England Conference, behind Colby College and Bowdoin College. They are currently 4-0 in conference play and 5-1 overall.

The Dartmouth team is currently ranked fifth in the conference, with a record of 2-2 in conference play and 3-3 overall. They will also return to action next Saturday against Bowdoin College.

The Bates game is expected to draw a large crowd, as it is the team's first home game of the season. The stadium is expected to be filled to capacity.

The game will be played at 2:00 PM, with the大门 currently open at 1:00 PM. Fans are encouraged to arrive early to ensure their seats.

For more information, please visit the Bates College Athletics Department website or call the athletics office at 207-726-3255.
Here it is...

...Turkish tobacco...world famous for aroma and fragrance...no other tobacco like it on the market.

...The import duty alone is 35¢ a pound.

Chesterfield goes its way around the world...Chesterfield tobacco...they say...to get this fine Turkish tobacco...add their special blend...to the best mild pipe tobaccos of our own South.

From far and near...at great expense...Chesterfield selects these mild pipe tobacco...to give smokers just one thing...MORE PLEASURE.

Chesterfield...they'll give you MORE PLEASURE.
