Recording Machine Aids Speech and Debaters

The latest tool in the arms of the public address system to help students in their speeches is a recording machine. During the first week of the fall term, the Freshman Debating Society purchased such a machine for use in their speeches and debates.

The machine can be used both for the public address system and for practice in giving speeches. According to some students who have used the machine, it provides an opportunity for presenters to present their speeches in their own voices, which they believe is a better aid in the delivery of speeches than in reading from notes.

The machine is a valuable asset to the Freshman Debating Society, providing them with a tool to enhance their public speaking abilities.

Varsity Debate Team Defeats Bowdoin, MIT

The Varsity Debate Team defeated Bowdoin, 2-1, and MIT, 2-1, in debates held on December 8th and 10th, respectively.

Bowdoin was defeated on the second floor of the Student Union and in the Student Union auditorium. The debate with MIT was held in the Student Union auditorium.

The debate with Bowdoin was on the proposition that "The accessibility of the college to students is more important to the college than to the community." The debate with MIT was on the proposition that "The state of the economy is more important to the college than the state of the world."
