The history of this song is in terms of the words set to a tune by Irving H. Shulman.

What is the meaning of the word "Alma Mater"? What is its origin and significance in the context of Bates College?

The "Alma Mater" song, as recorded by college decree, is a significant part of Bates College's tradition. The song, "Mater Fair," or "Bates Alma Mater," is set to a tune by Irving H. Shulman. It is an alma mater song, which is a song sung by college students to express their loyalty and affection for their institution.

The origins of the word "Alma Mater" can be traced back to ancient Roman times. The term was used to refer to the mother country or the cradle of education. In the context of universities and colleges, it has come to mean the institution itself, as a parent entity.

The "Alma Mater" song is a proud reflection of Bates College's heritage and the shared experiences of its students. It is a symbol of the college's solidarity and the bond between the generations of Batesians.

Dad's Day A Success

The success of Dad's Day now becomes a matter of record. The event, arranged and conducted with care and skill, tended and the gift of some of the conversations heard at the "common" when fathers and sons sat down and swapped stories over an "extra special common mode" are all the proof that there are no new problems at Bates.

It was great having our Dads with us and sharing college with them. We hope they enjoyed every minute of it as much as we did, and that they found in Bates something to be proud of—not only its buildings and campus, but its general spirit of friendliness. Sure that our Dads could possibly come back to some of the wonderful things about Bates that we live with it every day to over-

The question that now presents itself is whether or not Dad's Day will become an annual event. The committee organized and chaired the day's activities and that day the First Annual Dad's Day. We sincerely hope their opinion will bear fruit. We can agree that the best possible advertisement any college could have is an enthusiastic group of its students.

No New Problems

There are no new problems at Bates.

Back in 1832, for example, the question of noise in Chapel was considered a pretty serious problem. At that time the women sat in the balcony, and the administration considered seating the women among the men might discourage this behavior. "Chapel," however, was different from the present-day "Cathedral." In those days, there was no Reserve Officers' Training Corps. There were no new problems at Bates.

There are no new problems at Bates.

There are plenty of valid reasons for the administration to consider the problem of noise in Chapel. There are no new problems at Bates.
