President Allinga will give the 1st annual Peace Seminar to the faculty and students of Bates College, according to an announcement received from the Peace education committee.

Dear Editor:

The citizens of the United States are deeply concerned about the increasing number of cases of illness and death due to the atomic bomb. The United Nations, which is the world's only truly democratic organization, is the only hope for world peace.

Bates College, through its contribution to the campaign, is making an important contribution to the cause of world peace.

Yours sincerely,

Unique Play, ‘Our Town’ Pictures the Simple Life

by Marilyn Dodge ’40

It is that of a small rural New England town, and the simple people events in the lines of various stories. ‘Our Town’ is hard to define, but say it is some town and the people might be of us or any group of people who live in a small town and are happy. The last word is particularly impressive. Here we know the past must be left behind and the present kept running smoothly and that the future is in God’s hands.

The average length of service of the 13,230 people working in the Chesterfield factories, storage houses, leaf-handling and redrying plants is over 10 years. This means that every step in the making of Chesterfield, regardless of how small, is handled by people who have had 10 years of experience and ability in knowing their jobs.

TRULY TOBACCO opens Doors to fields where people live, work, and achieve, and Chesterfield takes pride in its ever-increasing part in this great industry that has devoted itself to the health and pleasure of America’s public.
