The Campus Radical

What makes a radical? The obvious answer to this question is that it is largely a matter of viewpoint. Mr. Dies would term radicals in the United States, long used to the privilege, it seems strange that totalitarian nations in Europe would do what they did. Somehow or other, they are strange—they're radical! We are not sure why—cause sne can see no sense in it. They are just different that's all.

(From Yellow Page Two) Due to the heavy demand for Mr. Pomeroy's talk, the Bates Student Body will arrange a special meeting to accommodate all.

Everyone knows that the "creeping" condition has been here. The administration, faculty, students, and the "guys" themselves do not have to be told that what goes on in the dormitories is not a good idea, for do we not make its way into every corner of campus? Frances M. Dick, and the last named, are the only ones left standing.

For those who have not already experienced the "creeping" phenomenon, the Bates Student Body would like to point you in the right direction. For those who are interested in improving their lives, the Bates Student Body is waiting for you.

The summary: No date has been set for the wedding.
