Walsh Refutes Rumors About Youth Congress

By ARTHUR WAGNER

"Constitutional rights--Men and women are equal," said Senator Arthur B. Walsh of Madison County and the head of the Joint Senate committee on youth congresses, in an address at the University of Wisconsin yesterday. "We are equal before the law, therefore your right is as much as my right to have a voice in the government." The Senator, who is a member of the Republican state committee and of the national Republican committee, is also a strong supporter of the youth congresses.

The Senator’s speech was one of the most eloquent and effective that has ever been made on the subject of youth congresses. He pointed out that the youth congresses were simply a means of giving young people a voice in the government, and that they were not an interference with the rights of adults.

Mr. Walsh also spoke of the importance of education and of the need for more schools. He said that the youth congresses were an opportunity for young people to learn about the workings of the government and to get interested in public affairs.

The Senator’s speech was well received by the audience, which consisted of members of the university faculty, students, and citizens of Madison.

Novel Rendering Of Favorites Marks Wolff's Lieder Concert

By EDWARD DRAKEBORN

Mr. Wolff gave a successful recital of lieder to me who came to the concert, and I was greatly impressed by the power and beauty of his voice. He sang with great expression and emotion, and his interpretation of the music was excellent.

The recital was well planned and executed, and the audience was greatly pleased with the performance. Mr. Wolff has a fine future in his chosen field, and I have no doubt that he will become one of the great lieder singers of the future.

Shimen Compete in B.S. U. Championships

The Shimen team was successful in the B.S. U. Championships, which were held in the Music Center on Friday, March 3.

The team consisted of John Smith, James Brown, and Robert Green. They performed a variety of musical selections, including songs, solos, and arrangements.

The team finished first in the competition, with the following scores: 75 for John Smith, 72 for James Brown, and 70 for Robert Green.

Eleanor Stockwell will represent the Shimen team at the state championships, which will be held in the Music Center on Saturday, March 4.

42 Prize Debates Argue Comprehensive

The debate of campus this season was a comprehensive one, and the arguments presented by the contestants were well thought out and well presented.

The topic for the debate was: "Resolved: That the government should not be required to provide a university education for all citizens of the United States." The arguments were presented by the following teams:

- The affirmative team, consisting of George Sneath and Richard Hitchcock.
- The negative team, consisting of Edward Drakeborn and James Walsh.

The affirmative team won the debate, with a score of 75 to 60.

Vesper Service Held

Dr. Zerby Discussion

The Vesper Service was held on Sunday, March 3, in the Memorial Chapel.

Dr. Zerby, a well-known authority on Far Eastern affairs, spoke on the topic of "China and Japan." He discussed the current situation in China and Japan, and the possible outcome of the conflict.

The service was well attended, and the audience was greatly interested in the speaker’s remarks.

Has Our Conservatism Backfired?

Three years ago, Bates took a step toward the progressive in education. This new system of rating was theoretically abandoned. Students and faculty alike understood that the line of demarcation between an A and an A- or B+ was more than a question of names under the new plan. But differentiation was a fact. It was agreed to call them both "B" marks. That faculty members continued to rank students numerically was a source of dissatisfaction. But when inquiries were made, it was found that because they received a B, they were to receive a "C," and another, receiving a B-, was told that his actual advance in the course was represented in the change. Had the step been merely a stumbling in the right direction?

The whole argument seems rather foolish to us, ever-technocratic discussion over names of marks. But since we must face an actual situation in which both students and faculty seem markedly guileless and repudiation grades of as prime importance (scholarship, graduation, school attendance, and student "prestige" (7) depending on them), may we offer a plan for discussion that is not new, and we know has been thought of by the administration.

For example, marking.

Who are marking?

Faculty members continued to rank students numerically was a source of dissatisfaction. But when inquiries were made, it was found that because they received a B, they were to receive a "C," and another, receiving a B-, was told that his actual advance in the course was represented in the change. Had the step been merely a stumbling in the right direction?

Favor Bowdoin
By Wide Margin

Fifty-one minutes and nineteen seconds was the time when the lid on the immortal sport of Maine versus Harvard was lifted last Saturday night in the gymnasium at Cambridge, Mass. The score of 58-45 was the outcome of a contest that should probably merit some attention on the part of the managers of the Central League, and if the game is ever played again, it is probable that the Harvard team will be thoroughly prepared for it.

By Wide Margin

so is a question mark. However, Lynn
Charlie Edwards are other dependable
