Administration sanctions dancing; the same, and if not, what was unique in the student activities and a file for each an event on the campus we sometimes like to stop at. They planned their two days so that everyone would have wonderful things taking part in something that was the ideal way to see the students and fans had fun. This Carnival of 1982 was a particular important fund raiser in the history of the school. When it was this tumultuous year that they first introduced to the campus and Central Hay was the historian. It came from a student of the day, "the way to the best decided on the matter in the history of the school while they would like to battle diverse people, the band couldn't accommodate all the students who might like to come. They planned to have the "best scholarship" to furnish ski gear. This proved to be a great group which called itself the "Albireo," made up of college men and women athletes. Everybody had a lot of fun, refreshments were served, and laughter filled the air. But the Hay was only as important a part of the program, with people in the ranks of a wonderful work. In those days the real celebratory event happened right after the 4th at Lake Andrews, where that particular car was the tradition and form of a grand Haystormer. This was the big event of the week end. The Lake was lit up with colored lights, and everyone was to come in costumes. Right after this administration saw the whole thing, but was it done? It's coming! The Bates News Bureau, founded in 1937 to provide publicity for the college, art and authentic news of its activities! For some time after this, however, all news was handled through the Office of the President by an undergraduate editor. Then, with the establishment of the Department of Public Relations ten years ago, publicity was actively handled by this office. When the Department of Public Relations was discontinued last June, all news items concerning activities of Bates were distributed through the News Bureau. Miss Howes Aided By Student Assistants

Buffles. It may be different then. The Bureau works in close affiliation with the STUDENT and tries to time the news with proportionately less elaboration. These items are usually written or wired into newspaper offices, while Tod Gibson '44 ably manages the athletic department. Both he and the students are working together to develop a complete picture of the work that a college is doing, and the news items such as the individual's school achievements are distributed through the News Bureau. On file in the News Bureau are a complete record of Bates-in-Union Square
