In a recent letter, James Stahlman, chairman of the Northwestern University Victory Dance Committee, announced that "the affair will be one of the events of the semester. The dance will be held in the gymnasium of the university, and the student body will be invited to attend." The dance will be held on Saturday night, November 13, and will be open to all Northwestern students. The committee is planning a large turnout for the event, and expects to attract a large number of guests.

Dane Whitman, a Freshman at Northwestern, has been appointed the chairman of the dance committee. He is a member of the Northwestern Y.M.C.A. and has been active in student affairs on the campus.

The dance will be held in the gymnasium of the university, and will feature music provided by the university orchestra. The program will include a midnight show, and the dance will conclude at midnight. The committee is planning a variety of activities for the event, including a costume contest, a talent show, and a dance contest.

In addition to the dance, the committee is planning a variety of other activities for the weekend. The students will be able to participate in a variety of sports and recreational activities, including a football game and a tennis tournament. The committee is also planning a variety of social events, including a dance at the university's dining hall.

Editorial Armchair

"I am the captain of my soul."—Henry Wadsworth Longfellow

There have been many who have said that this country is in a state of turmoil and disaster. We have been faced with catastrophic upheaval and disturbance, nor have we been left unscathed by the storms of war and the pressures of scholastic labor. This editorial is written that they may be urged to look toward the future, to view the present objectively, to keep their heads above the water of school and work.

It is hard enough for the ordinary college student in wartime living to total up to what seems like an imponderable total. We have run a "campaign" to correct the ages of some of our students.

This is not the first time in history that men have faced physical or mental incapability, but because this extra pressure comes in addition to the strain that they are facing already, it is doubly unpalatable. But the ordinary college student in wartime living can learn to overcome insurmountable obstacles.

We have run a "campaign" to correct the ages of some of our students. We have given groups more public attention. We have run a "campaign" to correct the ages of some of our students.
