Fourteen Seniors Earn Mention In U.S. Intercollegiate "Who's Who"
As, Hawthorn Strikes

By Sylvia Sonny

She's a girl who had it all, but just when you think she's got everything, she's gone. Last night, Thursday, November 7, the school of Bates was shocked by the sudden death of Hawthorn, a local celebrity. Hawthorn had been a popular figure on campus for quite some time, known for her fixed cost and her always cheerful attitude. But now, her absence will be felt deeply by all who knew her.

The news came as a shock to everyone who knew Hawthorn. She had been planning to attend the formal evening event tonight, and her absence will be felt sorely. The college community is coming together to honor Hawthorn's memory and to remember her contributions to our lives.

The impact of her passing will be felt for a long time to come. Hawthorn was a shining light in our lives, and her absence will leave a void that will be hard to fill. But her memory will live on through the many stories and memories we share. Hawthorn may be gone, but her spirit will always be with us.

The college community is coming together to remember Hawthorn and to support each other through this difficult time. Let's all come together to remember her and to continue her legacy in the best way we can.

Hawthorn, we will miss you.

The interesting
thing about this
phenomenon is
that the players
have no idea
what the
position of the
opponent is. The
opponent's
strategy is to
keep the
opponent off
balance
and out of
rhythm.

Air Raid Wrecks Havoc in Peaceful West Parker Halls

By Martin Bennett

I am a boy of 14. When the air alarm sounded, I was already out of bed. I was to meet my sister for breakfast at 7:30 a.m. on Thursday morning. As I turned to leave my room, I noticed a flash of light in the sky. I ran outside to see what was happening and there was a large explosion. I could see smoke and debris from the building that was hit.

As I stood there, I noticed several other people had come outside to see what had happened. Some were crying and others were just standing there in shock. I tried to comfort them as best I could, but it was difficult to know what to say.

Eventually, the police and fire department arrived on the scene. They were able to evacuate the building and begin the process of cleaning up the debris. I watched as they worked until the area was safe to enter again.

Although it was a traumatic experience, I am grateful to be alive and to have had the opportunity to witness such a dramatic event. It serves as a reminder of the importance of being prepared and staying calm in times of crisis.
