Tomorrow Is Opening Night For New Robinson Production

Muriel Stewart, makeup artist, inspects her handiwork, as Edward Tyler prepares for his role as Disraeli, a famous British prime minister, in the forthcoming production by the Robinson Players Thursday, Friday, and Saturday of this week. Miss Stewart also plays the role of Hildegard in the play.

The debate season is at its height, and the campus is heartily in sympathy with all the campaigns, which did much to increase the enrollment.

This last point is interestingly handled by a harsh critic of theatrical production, who, therefore, feels that the performances are never of a high order.

The cast, after weeks of rehearsal, is ready to perform for the first time.

In the union hall, the first campaign meeting will be held on Monday night at 8:00 o'clock, with a four-hour program.

One of the highlights of every college year previous to the war was the election of a Mayor of the Campus. Now that college life is slowly returning to normal, the mayoral campaign will once again get underway this year on May 30th.

Colby College is Host To Student Conference

President Horace Newman welcomes the representatives of Episcopalian students in Bates College, Colby College, Goucher Teachers College, and the University of Maine. He addressed the role of the Episcopal Church as the point of contact between the student body and the University of Maine. He stressed the role of the Episcopal and the University of Maine. He voiced his concern about the lack of religious education in the college and the need for more religious activity on campus.

Colby College is Host To Student Conference

Ivy Day Commited Names Speakers

The National Union of Students of the Universities and Colleges of the United States and Canada is inviting the Bates band to meet the band of the University of London, the University of London, the University of Oxford, and the University of Cambridge for an international debate on the literary and cultural history of the country.

A list of questions concerning the topics of interest and future debates will be submitted to the foreign statesmen for their selection.

Dr. Alfred W. Painter Joins Bates Faculty

President Charles F. Phillips of the University of Maine, joined by Dr. Alfred W. Painter, currently associated with the Department of Religion at the University of Chicago, announced his appointment to the chairmanship of the Department of Religion at Bates College.

Dr. Painter is a native of Seattle, Wash., and Dr. Painter graduated from Linfield College, McMinnville, Oreg., in 1933. Following his graduate work at the University of Chicago, he was granted the degree of Ph.D. in the field of religion in 1945. He has been director of the Chapel Union and of the Interchurch Council at Chicago and has worked for several years as religious advisor for students.

Archery Champion Displays Skill For Campus Co-eds

Mrs. Myrtle R. Miller, International Archery champion, will be the guest speaker at Bates College on Tuesday, May 25th, to give demonstrations and instruction in her skill. Mrs. Miller holds a series of championships in archery. She was international champion in archery in 1935 and 1936. In this year, she was chosen champion of the State of Connecticut, and of the New England States.

Archery Champion Displays Skill For Campus Co-eds

Attending the University of Michigan from 1938 to 1939, she received her Bachelor of Science degree in Physical Education. At college she was head of every sports team and participated in the state tourney. One of twelve New England freshmen, Mrs. Miller was selected to participate in the National Tourney at Bates College. In 1941, she was chosen international champion in archery in 1935 and 1936. In this year, she was chosen champion of the State of Connecticut, and of the New England States.

Archery Champion Displays Skill For Campus Co-eds

Dr. Painter was a guest at the Bates campus over the weekend with Colby's new director of the Chapel Union and the Interchurch Council at Bates and has worked for several years as religious advisor for students.
RESISTANCE TO LEARNING

Hundreds of young men and women are being turned away from college for the simple reason that there is not room for them. That fact alone should be enough to make us realize how lucky we are to be in college, and make our incentive to learn that much greater. And yet, the conditions in chapel have led one professor to remark that it seems that most of us are doing our best to resist learning. He commented, that in looking down from the balcony while one professor was delivering a very instructive talk on current affairs which should be of interest and concern to all of us, one will be the cupel for further advancement of rah, rah, most trustworthy and erudite man is elected Mayor of Bates which tinged the otherwise drab background of academic ends and certainly no reason why we who have come to college to learn should resist any attempts at instruction.

J. Packard Makes Chain Of Chem Courses Whole

By Sally Ann Gee '46

Every morning at the wee hour of seven-thirty one can see a rather unusual scene in hand as chemistry students who are known by a plethora of various names as: "John", "Chen ma" and "Waltz" pool in on the chemistry students he is known as legitimately as "John", "Chen ma" and "Waltz" pool in on the chemistry students he is known as legitimately. John does not make up the picture of the sort of students that the students would picture. In addition to this, he keeps track of the students' backbone and culture — and gives some friendly advice to the freshmen concerned. John knows all the students of his class, and he is all at the same time of a character which is supposedly close. On several occasions John has been known to sit in on some of his lecture notes without their knowledge.

As one student very aptly said of John, who would turn the palms and foreheads down for a safety pin, if that's what John knows all the students quite well, and goes out of his way to help them.

The Chemistry Department has a line on these courses each semester, and John is the link that makes the courses continue. John has given a schedule of the coming semester in advance, and he reads the material used by the instructor, and then prepares notes. His notes are filled with recently published articles on such heated topics as: Rutaceae, which is supposedly clean, and writing, besides speaking, John returned to the United Chemical states, in particular, and an encyclopedic knowledge of things. However, due to the war, the plan was closed, and it was closed for a while.

With the exception of Tuesday night, when the departmental meeting, John is assisted by Clarence T. Bickert, who works alone from 7:30 to 9:30 p.m. In the states, already mentioned, John has now in stock all connexions and apparatus — a back-breaking job! He keeps track of the different students and minor repairs.

The next time you find that you are mentally putting yourself on the back for a smooth, successful experiment, stop, look for John, and smile — he'll know why.

Conference

(Continued from page one)

The annual Christian geological Society for the school year 1945-46 is known as "Buddies." The society met for the past two years, based on the trip yesterday — that is, we went this city quarry shore, without man's help and without any help, Robinson, Leonard, Gould, Sevier, and all the fellows was right behind Doc Fisher and his assistants. Of course, the whole problem of the trip was indicative of a problem, you know, of course. People were given a schedule of the day — that is, we went this city quarry shore, without man's help and without any help, Robinson, Leonard, Gould, Sevier, and all the fellows was right behind Doc Fisher and his assistants.

One girl was heard to remark, "One look at the dikes, I never thought they existed outside of the laboratory. I find no real justification for this kind of work. It is a waste of time and effort. I think I will stay away from it."

The main reason for this kind of work is that it is a waste of time and effort. I think I will stay away from it.

Prof's Summer Plans Show High Ambition

Many of us have our summers mapped out, while others do not. We are again leading the geology classes into exciting work in the field — by this we mean this city quarry shore, without man's help and without any help, Robinson, Leonard, Gould, Sevier, and all the fellows was right behind Doc Fisher and his assistants. Of course, the whole problem of the trip was indicative of a problem, you know, of course. People were given a schedule of the day — that is, we went this city quarry shore, without man's help and without any help, Robinson, Leonard, Gould, Sevier, and all the fellows was right behind Doc Fisher and his assistants.

The main reason for this kind of work is that it is a waste of time and effort. I think I will stay away from it.
### Bates Hold Annual Last High School Relays

Last Saturday sixteen schools, both high schools and grammar schools, competed here in the annual Bates Relays. Forced into the cage because of bad weather, the runners, nevertheless, put on a good show for the several hundred spectators present.

Edward Little won the Class A 440; last outgoing South Portland, Scarborough High won the Class B competition, scoring primarily in the field events. There were also Class C competitions for junior high schools and a Class I competition for grammar schools.

Other prominent relay teams included Lewiston, Waterville, and Farmington.

### Three Track Men Journey To MIT

Bates Track was represented at the New England at St. L., U.T. last Saturday by three Bates hopefuls. They were Burton Hamblin, Mid- dler, Alan Howlett, Broad Jump and Dashman and Michel Latapio, Broad Jump.

Burton Hamblin, a new man on the track this year, ran the best race of his career on a wet track, although he did not place in the finals. With a few more months experience, Hamblin will be a promising prospect for the State Meet next spring.

Allan Howlett, another veteran on the squad, placed third in the broad finals in the 100 yd. dash, beating Hutchinson of U. of Maine, state champ this year. The future, however, had other ideas as they placed Howlett third instead of third much to the surprise of many of the coaches present. In the Broad Jump he did not have the well enough to place in the finals.

Michel Latapio, a Pre-war Bates track favorite, qualified for the finals by making a jump of 24" 4", but in order to make the finals, he pulled a muscle which put him out of running in the finals. We hope that "Laddy" will make a fine run on the university track next year as he is a valuable asset to the team.

Next year, track fans will see a new Bates team, for many former Bates track stars in its ranks. Coach Pond has already started a fall schedule for winter and spring seasons.

### Sports Calendar

Friday—BATES Away J.R. vs. Roger Bill West Parker vs. Off-Campus

East Parker vs. Roger Bill Track is Scheduled

### Diamond Dust

By Daniel Carmen

The American League race this year is a fine one, with three-coordinated teams in the Junior League. The park is in the top, in New York and downtown; it all promises to end the game.

The Bates run crossed the plate on an error; the Bushmen scored all five runs in the third to that Bates and Thompson are out of the game. The Bobcats scored four runs in the fifth, sixth, and seventh innings. They added their final tally in the eighth on an error and a Bushmen's bunt. Bates had a great game in the finals and finished out with a 10-2 defeat.

Bobcats until tiring in the ninth inning. Coach Pond and the Bobcats enjoyed another big victory over the Bobcats. The game on Friday. The visitors were able to put on nine on bases in the bottom half of the second to score six runs. Bates did not give up one single hit on the field. Bobcat Adair and Julie Thompson led the Bobcats at the plate with Bobcat Jones getting two singles.

Debaters Will Compete With Teams Throughout England And Scotland

(Continued from page one) three years with the Army Air Corps at Martinsburg, W. Va. He graduated next February with a Bachelor of Arts and a commission in the Army Air Corps. Davis, who was recently ejected president of the Bates Intercollegiate Debate League in 1942, is the son of a national officer of the Boy Scouts of America. Following his discharge last October, Temple was employed as a Physical Director of the St. Louis YMCA. In March he returned to Bates, where he is majoring in economics, and will graduate in 1947.

The Bates team will be coached by Professor Quimby, a Bates debater of the class of 1913. He has been a national officer of the National Sigma Rho, the honorary society for forensic achievement, and is an instructor in the national Tau Kappa Alpha Fraternity. Before 1922 he has taught- training and public speaking at Bates, and his teams have been in international debate.

Bates initiated international debate in 1909-10, when a debater of the class of 1913. He has been a national officer of the National Sigma Rho, the honorary society for forensic achievement, and is an instructor in the national Tau Kappa Alpha Fraternity. Before 1922 he has taught- training and public speaking at Bates, and his teams have been in international debate.

Edward Dunn and Norman Temple Prepare for Debating Trip to Europe

Miss Dorothy Billis, graduate of Bates, class of '31, has been the guest of Professor and Mrs. George Ramsdell this past week. Miss Billis is with the Sam Jaffey agency in Hollywood which sells stories in motion pictures.

Miss Billis is in the literary department of the agency representing writers and their material, and assisting them in selling them to the big motion picture industries.

While at Bates Miss Billis was active in the various literary publications and the Women's Athletics Association. She commented that she would be very glad to see any students interested in her line of work, or with aspirations in the line of story writing for the motion picture industry.

The Group Work class has also been announced recently by Dr. Andrews, the Dean. The Group Work class, which formerly was a one semester course, will be extended to a year. The group will cooperate with the State Department of Health and Welfare, doing field work in the Auburn offices of the State Department. The group will be divided into two parts: child welfare and old age assistance.

The Special emphasis will be placed on recreation for the community. The group work as formerly will be with the Boy and Girl Scouts and the YMCA and YWCA.

The new group will also be a part of the Social Work class, which is being taught this semester. The Special emphasis will be placed on recreation for the community. The group work as formerly will be with the Boy and Girl Scouts and the YMCA and YWCA.
