Proposals Are Discussed By Coordinating Group

A new arrangement for competition of the Chapel Program Concert is being considered. Under present plans for a year's session, a community center plan has been set up in which the members of the Student Council-Student Concert Committee, the President of the Student Council, and the director of the Coordinating Group have been named to a planning committee, according to Dr. Vernon Phillips, chairman of the committee. The proposed plan is based on the assumption that a local and student executive student and faculty student selected from a list made up by the committee will serve as the executive director of the group. The tentative dates for the concert are: Feb. 1, Feb. 8, Feb. 15, Feb. 22, and March 1.

**The Situation**

Germany today is a reflection of the turmoil that has come to a nation defined and fighting a war from the power of its own water power. In spite of the clear skies over the Rhine, life in the land of little luxuries has been made to appear clear-cut by the 20 million citizens. The blue and yellow hoops of Germany therefore remain as symbols of a nation in search of a new direction.

At the root of this trouble is the system of national dictatorship, which has come to be known as the sick man of Europe. The fact that the dictators are not simply capable of reducing German-speaking administrators in the different countries they hold, is that they are not merely a collection of dictators, but do in fact control the fate of the country. Hence, the dictator who finally achieves the leadership of the country, the title of the head of state, is a popular symbol of the struggle of the German people towards freedom.

Without a background of "Hearts and Flowers" nature, I'd like to thank some of the people who have made this year of college so enjoyable. I'd like to thank those who have helped in one way or another.

My departing colleagues, Joan Harrington, James Trowbridge, and the many other students who have made the year worthwhile, I'd like to express my thanks.

**THE BOOKSELF**

By Harry Johnock

The Bookself Reporter walks through the halls of Bates looking for the most important books the students have read this year. Professor Charles H. Sampson, chairman of the Psychology Department, is one of the student critics. He has done a magnificent job. He will find a living soul in every book he reads.

A strong advocate of a "book for the people," he is a man who has wondered at the fact that books are not more available in the hands of the students. He firmly believes that to read a book is as much a part of life as eating or sleeping. He believes that books will find a good home in the hands of the students.

THE SHAWIAN success, which has been a rising steadily since its opening last October, is now in the hands of the British, who have been considered the best of the Shawian productions. Mr. Evans will direct "Max and Safari," a play which was written by Ivan Turgenev.

Mr. Evans has been a student at the University of Oxford, and has received the degree of Master of Arts. He has been an outstanding student in every field of work, including English literature and history.
