The old wind howled through a window in the choral room. Day had vanished, if I'm not mistaken. It was possible that I had just made a mistake. I wish to take this opportunity to thank all those who have helped me in any way.

Mules Defeat Pastimiers, Make Top Spot In League

By Art Hathcock

Maine Baseball's greatest source of encouragement is its place in Standing. The undefeated Mules have a tight grip on second place in the U. S. A. A. E. L. They are one of the teams that has not lost a single game in the last two weeks. They have moved up to second place in the standings, just ahead of the University of Maine.

Maine is in the cellar with four losses and three defeats. Maine has not put up much of a fight in their four losses, but they have not given up yet. They have had their moments, but they have not been able to capitalize on them. They have had several opportunities to win, but they have not been able to take advantage of them.

The Mules have been led by their pitching, which has been excellent. They have not given up many runs, and they have been able to keep the opposing teams from scoring. Their defense has also been strong, and they have been able to turn double plays and other defensive plays that have helped them to win games.

Letter To The Editor

(Continued from page one)

The Committee press and party have conducted an unscrupulous campaign of extremes, bitterness, and malignancy against the Socialist party. Their actions were based on a scurrilous campaign of lies. 

The Committee's main purpose is to bring about a change in the reefer and rehabilitate the law violator and the individual, to wipe out the waste and disease from our communities. They have therefore been working hard to create an atmosphere of fear, hatred, and intolerance. They are working against the masses and supporting the interests of the big businesses and the wealthy. 

They are against the labor movement, the farmers, the workers, and the people in general. They are for the rich and powerful, and against the poor and oppressed. They are for the haves and against the have-nots. They are for the ruling class and against the working class. 

They are for the Establishment and against the progressive forces of the people. They are for the status quo and against the changes that are necessary for the betterment of society. They are for the past and against the future. They are for the old and against the new.
