Debbie Thomas: New Light in Lane Hall

by Barbara Braman

Debbie Thomas, the new assistant Dean of Students, is full of energy and enthusiasm. She graduated last June from Middlebury College and it seems as if it is probably hard for her to realize that she is now a part of the administration.

As Assistant Dean, her office is next to Dean Isaacson's in Lane Hall. She is in charge of foreign student advising, proctors, and women's residences. She also does student counseling, and she says that she enjoys this part of her job the most. She encourages anyone with any sort of problems to drop by and she will try to help. Let me add that she is very easy to talk to.

Being a new arrival at Bates, Debbie finds our campus very tight. The campus is smaller as well, and she says that it seems to make a difference in that the community is much closer, "You can't avoid meeting anybody," she says, which is true and which she sees as good. She also finds the students she has spoken with very friendly. "I've really enjoyed all the students I've met so far."

Debbie majored in American Studies at Middlebury, and is generally interested in the arts, especially theater (which she hasn't been too active in so far) and modern dance. (She's hoping to have time to join some classes this fall.) Debbie is obviously very excited about her work, and says that she can't imagine being more happy in a job. It is still early in the year and she is still getting oriented, but she hopes to become active in many Bates activities. However, she finds that "being a dean takes up most of your time."

N.W.C.:

Boycott Update

by John Rogers

"The boycott must go on!" That was the message UFW organizer Mike Guare brought Bates students in the Hirasaaw Lounge last Tuesday evening. After showing an excellent film which covered the passage of a union representation election law for agricultural workers in California. But the legislation does not force the growers to sign contracts with the unions which win the elections. It simply compels the growers to "negotiate in good faith."

Some elections have already been held under the provisions of the new law. The UFW has won about two out of every three elections so far, quite an accomplishment considering the illegal tactics of the Teamsters and the growers. On farm after farm, workers were told that they would be fired if they did not support the Teamsters, and UFW organizers were not allowed access to the workers. In some cases workers were fired for signing UFW authorization cards.

Last week the California Labor Relations Board took five major growers, including Gallo, to court for unfair labor practices by intimidating workers before the elections. More court action is expected. The growers seem ready to fight court battles for years. They are also appealing elections won by the UFW on various grounds. Laws do not deter the growers, the only thing they understand is the amount of their profit. So the boycott continues.

Documentation of the recent events in California is available from the Bates New World Coalition, Box 610.

New Appointment

President Thomas Hedley Reynolds announced that Ms. Karin S. Dorsey has been appointed the Biology Department's Assistant in Instruction at Bates College. A native of New Britain, Connecticut, Ms. Dorsey is a 1964 graduate of Middlebury College in Vermont. Graduating cum laude with a degree in Biology, Ms. Dorsey was elected to Phi Beta Kappa.

Ms. Dorsey had previously been a teacher at North Science and Biology at the Kents Hill School, Kents Hill from 1964-1966.

Sorting the Scheduling

by Frederick Leong

If you are in Commons and standing in line for lunch and there seem to be five hundred other students in front of you, this article will be of special interest to you. Or if you wanted to take some courses but couldn't because the time of the classes coincided, read on.

The Curriculum and Calendar Committee met on Wednesday, October 1 to look into this matter as well as plan for the courses in next semester. Although it is practically impossible for every student to be able to choose any courses he wants and not have them coincide, the above mentioned Committee has tried its best to obtain the best possible balance. This is quite evident in the proposals for the course schedules for winter semester. Generally, the classes on Tuesdays and Thursdays are alright. On the average, about fifteen courses are distributed in each hour. It is the courses offered on Mondays, Wednesdays and Fridays from 8:00 to 12:00 noon that are under review.

Given below are the number of courses offered and the number of students enrolled within each hour on MWF 8:00 to 12:00 noon during this semester.

<table>
<thead>
<tr>
<th>Time</th>
<th>Courses</th>
<th>Enrollment</th>
</tr>
</thead>
<tbody>
<tr>
<td>MWF 8:00</td>
<td>12</td>
<td>429</td>
</tr>
<tr>
<td>MWF 9:00</td>
<td>29</td>
<td>912</td>
</tr>
<tr>
<td>MWF 10:00</td>
<td>28</td>
<td>832</td>
</tr>
<tr>
<td>MWF 11:00</td>
<td>24</td>
<td>703</td>
</tr>
<tr>
<td>MWF 12:00</td>
<td>8</td>
<td>154</td>
</tr>
</tbody>
</table>

Next, we have figures of courses and enrollment for second semester for comparison. These schedules are only proposals from the Curriculum and Calendar Committee.

<table>
<thead>
<tr>
<th>Time</th>
<th>Courses</th>
<th>Enrollment</th>
</tr>
</thead>
<tbody>
<tr>
<td>MWF 8:00</td>
<td>17</td>
<td>550</td>
</tr>
<tr>
<td>MWF 9</td>
<td>20</td>
<td>525</td>
</tr>
<tr>
<td>MWF 10</td>
<td>22</td>
<td>510</td>
</tr>
<tr>
<td>MWF 11</td>
<td>17</td>
<td>475</td>
</tr>
<tr>
<td>MWF 12</td>
<td>19</td>
<td>520</td>
</tr>
</tbody>
</table>

You will note that the proposals for next semester have the courses and enrollment evenly distributed in contrast to the existing situation this semester. This is to allow students more choices for courses. As an example, there are 29 courses offered now on MWF 9:00 a.m. — this means that all students having a specific 9:00 a.m. class on MWF were not able to take the other 28 courses offered that hour. In the proposed schedules for next semester, the students with MWF 9:00 a.m. classes only have 19 other courses within that hour that they cannot sign up for. By evenly distributing the courses, the time clashes will be fewer and the students will be given a wider range of courses to choose from.

In addition, there is the problem of the presently overloaded MWF 11:00 o'clock classes. When the 11:00 a.m. classes are over, the majority of these students head over to Commons for lunch, thereby causing an overcrowding at Commons.

This situation will be remedied as soon as the proposals for next semester go into effect, as there will be only 475 students filing out of their classes on MWF at 11:00 a.m. — to the relief of everyone concerned. Also, the 8:00 and 12:00 classes this semester have relatively low numbers of courses and enrollments so the overflow from the 9:00, 10:00, and 11:00 o'clock classes will be distributed to the 8:00 and 12:00 o'clock classes.

The laboratory sessions scheduled so far haven't been giving too much trouble. However, some morning lab sessions have been arranged for even more distribution and convenience. The schedules for IT and MWF afternoon classes seem to be working out well.

For you who are still reading this report while waiting in line for lunch, look on the bright side; it gives you an opportunity to read your "Student".

Also, come winter, you may just be able to take both the Biology and Sociology classes that you have been waiting to take all your college career.

"How can they win when they're losing?" — W.S. 1975
Ozone Lost

In times of crisis, Bates students have gained a reputation for their ability to stay calm, cool, and collected. Well, it's time to stand up and be counted, comrades, because our number is up again.

The United Nations has, in its infinite generosity, found a way to commit suicide without damaging (to any large degree) our third world friends. When the Russians and European Americans and Europeans of American descent are gone, everyone will remember that it was the U.S.A. whose technology was advanced enough to destroy just us and a few intimate friends.

And it fits into a little spray can! After a few sprays you can smell like lemons and increase the chances of your getting cancer. Seems they put things like stables Freon gasses, or chlorofluoro-methanes, in deodorant cans. Upon leaving the nozzle of the spray can, some of these little buggers make it all the way up to the stratosphere, where they are gunned down by sunlight. Some pieces of the Freon gases, namely chlorine atoms, grab on to the nearest thing, which turns out to be ozone. Contrary to popular belief, ozone is a three atom molecule of oxygen. This bugger makes it all the way up to the sun's ultraviolet rays from the Earth's surface. If the ozone is busy with chlorine atoms, then nothing stops the ultraviolet rays from reaching us. When they do, scientists predict a large increase in the number of skin cancer cases, especially among Caucasians.

The company which makes the Freons, Dupont, says that they will quit making the gas if it is proven that the stuff is bad (nice guys, huh). Circumstantial evidence is not accepted, though. Unfortunately, that is precisely the type of evidence we have here. The number of Freon particles in the stratosphere is predicted, not data from a head count. There has been a precedent: rumors are bad sources for information, but this would appear to be more along the lines of an educated guess. If Dupont keeps making this gas until the effect of the Freons is obvious, one way or the other, it will be a little too late for anything besides, "I told you so".

So where do those calm Batesies fit in? And why is this blatant discussion of national issues in that paragon of limited journalistic jurisdiction, the Student? Because this issue is relevant at Bates, and company, it was decided to bring it to campus. This was not a profit making program — merely a convenience to students. It was designed to allow students to sell books that would no longer be used. Once and secondly, as a service to students having no means of disposing of unwanted books.

After observing the sales, signs and booklists were posted to inform and remind students of the need for keeping usable books on campus. Any student who sold books that might have been valuable to the coming year, did so for personal reasons. The CA would also like to add that the bookbuyer was not taking the place of a fall semester used book store. Obviously students came back prepared for the selling of used books, for this year's CA Used Book Store was a tremendous success. Approximately $600.00 worth of books filtered through the store and back into the seller's wallets. Respectfully, Steve Dosh

A Klepto

Dear Editor,

I am writing this letter to you in thank you for your great article on "Cloakroom Kleptos" you ran last week. It's about time that someone wrote about this important personal problem that me and many of my friends have. We are all children of a very bad materialist society. It's gotten to the point where we see something that we like, we just gotta have it. What's the problem? Do you know the statistics on theft? Bates students, when they are not busy being cool and calm, are used to the smell? Bates is a place where we are supposed to work for and help each other. I'll agree with me, not one of them said it was wrong.

Well, I have to conclude now (we're all going to La Cage for a few), so I'll make my point. We have got just no choice but one, and that is to close down the cloakroom for good and install some pretty good lockers there. You people like around, who don't really care what's right or wrong (I leave that to the preacher-types), and the Administrators not really caring either, we gotta do something drastic. We have to be honest about our own nature and accept the consequences. That's the only way we'll ever solve the problem. It's time to do it right.

(Name withheld upon request)

I.V.C.F. Frisbee Tournament Planned

by Dave Edwards

Bates Inter-Varsity Christian Fellowship is going to sponsor what Steve Dosh calls "a since childhood fantasy." This fantasy, of which Steve is the dreamer, is none other than a frisbee throwing contest. With scars in his eyes he explained to me that throwers would be judged on distance combined with accuracy. His greatest wish (though no one in the athletic administration knows it yet), is to hold the finals at the half time of a home Bates Football game. You, the true people of Bates, are warned to watch the dinner line for the seating arrangements. Steve Coursey, Ken Bero, Diane Arrato, Paul Homyel, Levitt bought that are in demand. Ironically it is not the books which have ironized enough to have something around that I like, I just can't help myself. I gotta take it, I just gotta. Like at the beginning of the semester, I saw this stack of books just sitting there really pretty in the cloakroom. Now it just happened that those were the books for a course I was taking, a philosophy course, Ethics. I think. Now we all know how important Ethics are, particularly with the way the world is and all, and I just spent so much money last weekend getting blown out of my mind (I had a really good thought. Believe me). Well, you can all guess what happened. I figured the guy who owned them was pretty rich, and Ethics too important. Well, anyway, all my friends agreed with me, not one of them said it was wrong.

Well, I have to conclude now (we're all going to La Cage for a few), so I'll make my point. We have got just no choice but one, and that is to close down the cloakroom for good and install some pretty good lockers there. You people like around, who don't really care what's right or wrong (I leave that to the preacher-types), and the Administrators not really caring either, we gotta do something drastic. We have to be honest about our own nature and accept the consequences. That's the only way we'll ever solve the problem. It's time to do it right.

Socially Unacceptable

by "THE FONZE"

Fenway Comes to Bates

The gala event of the year ("No, the decade!" cries Mr. Rich Goldman in ecstatic joy) has come and gone, all in a Sunday afternoon. Mini-Fenway, in the Wilson House lounges was put on by Rich and Linda Hermans, along with a cast of tens and one with a cast. Mini-Fenway was a replica of Fenway Park with box seats ($2.50), blasers ($1.25), beer ($1.00 for partial ownership in a keg), four televisions (three color), and even the green monster. This was the only cause for complaint, because the green monster in Mini-Fenway seems to have crawled over to right field.

The whole thing was devised to benefit the Jimmy Fund, which will be about eighty dollars richer for the host and hostess's trouble. Approximately forty-eight tickets were sold and forty-four were in attendance. What they attended was, indeed, Mini-Fenway. The box seats were relatively calm, with a few muggings, but the bleachers were frantic! Stomping, frenzied, rabid fans roared when Yaw ripped one into what should have been the nets. Yet, despite the beer, fans were relatively well-behaved. Professors Turlish, Fetter, and Cole were in attendance, as was Ralph Davis, of Administrative fame. Dean Lindholm, Coach Leahy, and Al Myers purchased tickets, but they failed to catch the action. Various people, including John's Place, donated money, while Value House and Steve Johansson donated the televisions. The beer was sold, at a loss, by Beverage Warehouse. There is a slight chance that a repeat performance might take place, but nothing is definite. In the meantime, the Little Red Wagon keeps rolling along.

**Good News for Vegetarians**

by Linda Jones

The first few days of eating at Bates College is always quite an adjustment. It is easy for vegetarians and meet-eaters alike to complain about the common's cuisine, but at the beginning of the semester, vegetarians found the non-meat meals to be few and far between. After a week the cottage cheese tastes like soggy klenex and one begins to crave something with a little more prazz!

Towards the end of last semester, soybean casserole or cheese sauce and cauliflower were not rare occurrences. For those of you who weren't here or don't remember, 18 out of 20 meals served at Commons were vegetarian. This year the proportion between meat and non-meat has not been so equal.

As a result, we went to talk with Mr. Canedy, director of food service at Bates. Our purpose was to find out why so few vegetarian meals were being served. Because the waste from an unpopular dish offered as a main meal is enormous, the kitchen cannot afford to experiment with vegetarian recipes. However, to alleviate the waste problem, he required signatures of 40 vegetarians on campus who would eat non-meat meals. With the assurance that a large percentage of these people would sign, we gathered meatless meal, Mr. Canedy can now limit the quantity of food prepared and experiment at the same time. If the interest gets colder and the fruit plates become less popular, he plans to begin offering more protein-complete meals.

A formal vegetarian meeting was held on September 25th to discuss other problems with the food at Bates. The primary concern was obtaining protein and variety. People also wanted plain yogurt on the salad bar and suggested that hard cheese be served in the dessert section. Finally, ten easy vegetarian recipes were collected and given to Mr. Canedy.

Canedy assured us he would try the new recipes, and he was receptive to our suggestions. (During our talk he asked, "What in the world do you do with Chick Peas after you soak them? Got any recipes for that?) Canedy also said he was not aware the yogurt contained sugar and would look for another recipe. As of last Friday, hard cheese was served in the dessert section. The portions were fairly small, but it is a step in the right direction. In passing I also asked him who ever thought up the stimulating (?) names for the meals. He proudly answered that yes, it was he who gave the Bates campus "seafoam strawberry surprise" and "yummy fruit festival plate.

Mr. Canedy appreciates student feedback in regards to the food served in Commons. For vegetarians especially, the willingness to try new things and to suggest recipes is important to maintain them. If you have any meatless recipes you would like to suggest either see Canedy personally or come to the next vegetarian meeting.

---

**"Le Tretreau de Paris" To Perform**

Bates College Professor Alexs A. Caron is in charge of arrangements for this year's production by Le Tretreau de Paris, which will perform Racine's, "Phedre," Sunday, October 12 at 3:00 p.m. in the Lewiston Junior High School auditorium.

"Phedre," a 17th century French tragedy, is one of Racine's last plays and is considered to be his masterpiece. It was written during the reign of Louis XIV, and considered one of the most profound and poetic tragedies ever portrayed on the Paris stage.

Phedre, the heroine, suffers equally from her incestuous passion for her son, Hippolyte, and from her sense of social and moral degradation. Racine retired from writing for the Paris stage a few months prior to the premier of "Phedre," and it has been suggested that the play reflects his remorseful return to the principles of his youth. Scholars have also held the view that Racine had shocked himself by this powerful picture of a world where the gods could be evil.

Le Tretreau de Paris artists will perform the play. They have visited Lewiston before in their yearly tour of Canada and the United States. The touring theatre company is composed of the finest actors of the Paris stage, and is sponsored by L'Association Francaise D'Action Artistique, a branch of the French Foreign Ministry.

All seats for the performance must be reserved, and tickets may be obtained from the Bates College Business Office in Lane Hall.

**Buzz No More**

by Susan Stucke

After receiving a petition from the students living in Tucker Hall, Dean Haasen finally decided to change the buzzer system. As before, all the doors, except the main one, are made of live o'clock but no longer does a male visitor have to buzz the room of his friend and wait for her to come down and let him in. Now he simply shows his Bates I.D. and the receptionist will let him by. However after 11:00 the old system still holds and all males must buzz. The Dean explained that the reason for having such a system is to prevent unwanted visitors such as townies or rowdies from wandering around the dorm and possibly causing damage.

---

**Theatrer Dept. Presents**

Mrozek's "Tango"

The Bates College Department of Theatre and Speech is opening its 1975-76 production season with Slawomir Mrozek's philosophical farce, "Tango." The play will be given at Schaefer Theatre Thursday through Sunday, October 16, 17, 18 and 19. Curtain time for all performances is 8:00 p.m.

"Tango," first performed in Europe in 1965, and in the United States in 1969, is about a young man who rebels against his parents. This familiar theme is given an unconventional twist in the hands of Polish playwright Mrozek: what the young man objects to is not parental discipline, but the complete absence of conventional values or morals from his bizarre home. Tormented and outraged by his parents' bohemian lifestyle, his mother sleeps with a mysteriously sleazy houseguest, while his cuckolded father performs absurd theatrical experiments. The young man eventually decides to force his elders to put some order in their lives. The results are hilarious — and appalling.

The play is directed by Martin Andrucki, newly appointed Chairman of the Bates Theatre and Speech Department. Professor Andrucki was responsible for last year's production of "Thunder of Poetry." Charles Sullivan, a senior, plays Arthur, the rebellious son, and Senior Lee Kenneth Paige plays his unconventional mother. Eleanor, Kerry Moore, president of Robinson Players, plays the part of ineffectual Uncle Eugene, and Junior Jane Duncan appears as the dodart grandmother, Eugenia. Freshman Jennifer Worden makes her debut at Schaefer Theatre as Alia, Arthur's would-be bride.

Garvey MacLean, the College Chaplain, plays Stomil, the too-tolerant father, and Norman Dodge, in his first appearance on the Bates stage, acts the role of Eugene's butler, that mysterious guest. Mr. Dodge, Instructor in Theater at the College, is also designing settings and lighting for "Tango."

---

**BOOK REVIEW:**

Nickel Mountain

by Barbara Brayman

Henry Soumes is grossly obese and is living under the sentence of a bad heart. He is a man who lives alone, has always lived alone and has eked out his living running a diner outside of small Slater, New York. He is a placid man, usually passive, but given to fits of crazed passion when he realizes that the life he desires to live is passing him by.

Callie works for Henry Soumes. She is the young daughter of a woman that Henry shily loved when he was young. She is in love with Willard Freund; but Willard goes off to agricultural school leaving Callie pregnant. She is a quiet girl, a practical imaginative girl, and yet rather better than the real. Henry marries her, and she has a son which he welcomes as joyfully as if it were his own. And so starts a new life for Henry. He is, it seems given another chance. He has a new perspective, and he develops a new way of dealing with the people with whom he has always associated.

John Gardner's Nickel Mountain has been sub-titled "A Pastoral Novel" and that is precisely what it is. It deals with rural customs and has the sentiment and spirit of rural life. It is a marvelously simple book. It moves slowly, but never ponderously. Rather it is delicate. Seasoned by the subtlest of forms of life in its upper New York state setting Gardner's prose has a crystal clear quality to it, witness his opening paragraphs:

In December, 1934, Henry Soumes would hardly have said that his life was just beginning. His heart was bad, business at the Stop-off had never been worse, he was close to a nervous breakdown.

Gardner manages to be very direct and yet it is not arbitrary. Nickel Mountain is a beautiful and rich novel. It is rich in its prose, rich in its illustrations (fanciful and delicate woodcuts created by Thomas O'Donahoe) and for all their simplicity it is rich in the character Gardner has created.
Ina May Wool to Headline Coffeehouse
by Lymon Munson

Ina May Wool, a noted female folk rock singer, will be appearing at Bates on Saturday evening, Oct. 11 at 8:00 in Chase Lounge. She will be the feature act of a coffeehouse. Bates student talent will fill out the bill.

Having built a dedicated following in the New England area, Ina May Wool is seriously considering signing a record contract with either Columbia or Reprise Records. Receiving Maria Muldaur vocally and visually, she specializes in Saloon tunes, Hank Williams' salutes, and sensuous blues. Her band consists of bassist David Lowe from Arkansas and guitarist David Brown from Gloucester. Ina, a graduate of Marblehead High School and Barnard College, had a recent Boston hit in "Georgia Woman." Ina May Wool, a noted female folk singer, Ina appreciates the trail-blazing efforts of Joni Mitchell and Maria Muldaur, but she still feels "Georgia Woman" or "Ina in the Trail" while attending Barnard. In a female singer, Ina appreciates the trail-blazing efforts of Joni Mitchell and Maria Muldaur, but she still feels that there's a lot more to be accomplished: "It's still kind of a very male-oriented female pop music... It's a long way to go because we're half a world and you would never know it."

The show is being sponsored by the Chase Hall Committee. Admission is free.

Next Week: Another issue of topical interest, due to be serialized in this space, will be "The Bittertale," a novel of poverty and despair. Among the stories under consideration.

"Let's face it, sports fans, it's really only a matter of time before the Oakland (Calif.) A's move out of the Coliseum, the story in the Answerman column last month stating that the President of the Outing Club can remove you at will. Is this true?"

"The President of the O.C. cannot remove me at will; only the chairman of the Education Department may do that. While the O.C. does have appointment power within the Administrative branch, our College is definitely a set of checks and balances provided that the O.C. may only remove for treason, felony, trespass, or improper cross-country skiing techniques.

"But say, Reynolds reversed his earlier position of last fall calling for a $5 surtax on high-QPR students to fund the Arts Center. Now he is trying to satisfy a 2.5% rebate to all students. Probably won't go over too well with the students who have heard that.

"I don't think the following are the best candidates for Head of the Department of Music, as recommended by the Academic Standing Committee last spring..."

"I don't think the following are the best candidates for Head of the Department of Music, as recommended by the Academic Standing Committee last spring..."

"The floor of the faculty meeting was then opened to questions. Predictably, most of the questions centered on "the gap"..."

"The address contained the usual half-tale..."

B. As you know, I have accepted the responsibility, but not the blame, I think this issue is being hyped extremely above all by members of the Student, WRJR, and the R.A. I think these matters of "the gap" are enough and that it is time to get on with the business of the college."

"That's correct, sir!"

"As you know, I have accepted the responsibility, but not the blame, I think this issue is being hyped extremely above all by members of the Student, WRJR, and the R.A. I think these matters of "the gap" are enough and that it is time to get on with the business of the college."

"...So This Is Humor?"
Laurie Shapiro star

Costly Errors Cause Loss

A costly fumble and a fourth quarter roughing the kicker penalty cost Bates what might have been their first win of the season, this past Saturday. The Bates offense finally got untracked, but bad breaks and mistakes gave Trinity the chances it needed, and the Bantams won 24-17.

For the first 10 minutes, it looked as if Trinity might live up to the predictions and crush the Bobcats. The Bantams scored with 6:36 left in the first quarter when quarterback George Rose connected with tight end Tom Melkus for a 4 yard touchdown pass. Less than a minute later, they scored again after getting the ball back on a fumbled kick off return. This time fullback Pat Heffernon did the damage on a 24 yard run.

Bates, however, fought its way back in the second quarter. Quarterback Chuck Laurie, looking very poised, engineered a beautiful drive which was capped with a 31 yard touchdown pass to Mark Shapiro. Shapiro broke the Bates career pass reception record in the game. Nick Dell'Erario added the extra point.

Trinity — Maus, 22 yard field goal.

Bates — Shapiro, 31 yard pass from Laurie. Dell'Erario kick good.

Bates — Geitz, 22 yard run. Dell'Erario kick good.

Bates — Geitz, 22 yard run. Dell'Erario kick good.

Trinity — Maus, 22 yard field goal.

Bates — Dell'Erario 38 yard field goal.

The game was by far the best game Bates has played this year. The offense (which was supposed to be one of the team's strengths) finally got into gear, rolling up 305 yards in total offense. The defense also looked good, as Pete Boucher came up with his third interception and Paul DelCioppio looked especially good in his line work.

Next week Bates will take on W.P.I. The Engineers have not won yet this season, and Bates looks to be much the stronger of the two teams. The game starts at 1:30 on Garcelon Field.
Soccer Bows to Bowdoin, 3-2
by Fred Clark with Stan Pelli

Last Tuesday the Bates soccer team dropped its second game of the year with a 3-2 loss at the hands of Bowdoin College. It was a perfect day weatherwise and the action and momentum proved to be just as good. Bates was first on the scoreboard on a goal by Mike Cloutman. He let a blast from the penalty area which powered its way past the shaky hands of the Bowdoin goalie. The lead was short-lived, though, as the Bowdies dominated the first half with good offensive pressure. A couple of breaks manifested themselves in first half goals as high scoring wing Robbie Moore failed a goal and an assist.

The tide turned toward the home team in the second half as Bowdoin seemed to be a bit disorganized and growing tired. The Bobcats, meanwhile, were playing a much more even game and knotted the score at two when Jim Tonney converted a Shippin Bright corner kick. Bates continued the game and their shots seemed to just miss. The breaks were just not with them. Bowdoin's Ed Quinlan got the goal winner with ten minutes to play and the fired up team held off Bates' last efforts for a score.

The Bobcats play has matured greatly in the last two weeks and by ironing out some defensive errors and sustaining a stronger attack they should find a successful week at the expense of U.M.P.G. and Colby. They play both at home — the former on Monday (look for results in the scoreboard) and the latter on Friday; so start your enjoyable weekend by checking out Garcelon Field (or the practice field for the JVs) Friday at 2:30.

Foot Notes — Bowdoin picked up their double victory last Tuesday as their JV team socked Bates 5-2. Recognition must go to sophomores Todd Webber and Manning Herr for some outstanding play in that game. Bowdoin looks to be the toughest team in Maine this year with 3-2 wins over Bates and U of Maine at Orono and a couple of other impressive showings. It was good to hear some angered Alumni yell when hearing that no soccer game was scheduled for last Saturday... Wonder what the soccer loving parents will say a week and a half hence! 

Stickers Tie Brown
by Marty Pease

This week was the week of slump for the field hockey team. In spite of it, the team remains undefeated with 3-0-1 record.

Early in the week, the Bobcats took on U Maine Farmington. The first half was poor, dominated by UMF. The Bobcats just couldn't move. But during half time the team got riled and came to life. In spite of rather poor playing, the team came out ahead 3-1. Priscilla Wilde scored two Bates goals and Becky Hoflrank scored the other. The J.V.'s were less lucky against Farmington, as they lost 1-0.

Last Friday, Brown came all the way from Providence to play Bates. It was a fairly even match, though some feel Bates dominated. Despite thirteen shots on goal, Bates could put only one in. Bates played 100% better than against Farmington. Brown earned their goal. The final score was 1-1. This time it was the junior varsity's turn to be victorious. They won 1-0. The goal was scored with an all-out effort by Leslie Dean.

Saturday, the alumni put together a team to show the varsity how to play. Members of the team were Betsy Mary '73, Cathy Joyce '75, Sue Bates '72, Sue Bogert '73, Nancy Johnson '75, Karen Harris '74, Marty Welborn '75, Dee Dec Grayton '75 and Cindy Holmes '74. Beth Brown filled for goalie and Coach Yakawonis for wing. In the second half coach Pat Smith played fullback. Some JV players substituted for the tired old fogies.

The first half was serious hockey but the second half was "horse-around". Sue Bates, as the bully, decided to play football. She picked up the ball and headed for goal. While Karen was stretching to get the ball over the endline, Marty Pease took it out of her hand, passed it to Betsy Williams who after a long run, passed it to Becky Hoflrank. Then the teams returned to hockey. The goalie, Marty Pease got bored and decided to play forward. A goal? Close but no cigar. She got her exercise from sprinting down the field after Karen Harris to defend her goal. All-in-all it was a good game.

The intramural program experienced a fine week of weather for the continuance of its fall athletics. Football and both men's and women's soccer are approaching their midseasons with complete standings to be printed in next week's Student. The double elimination softball tourney drew towards its close this week with two teams in head to head play for the title. Last week Roger Bill-Smith South took its games with Hedge Hall and Howard-Herrick-Wood and now must take two straight from the undefeated Pierce Pirates if they are to wear the softball crown. RB-SS sports a scrappy, hard-hitting attack and a 6-1 record while Pierce has won all of its four games with some solid late-inning play and equally solid hitting.

As promised last week, here is the dorm representatives list for the women's Intramural Council under the leadership of Joyce Hollyday and Claudia Turner (Cheney): Alice Devaney (Davis), Pat McNally (Faye), Pan Walsh (Hacker), Ann Scarlett (Hedge), Debbie Kupetz (J.B.), Ann Phillips (Mitchell), Jeanne Cleary (Page), Dori Carlson (Parker 1), Mary Ellen Kelly (Parker 2), Jackie Harris (Parker 3), Dena Auclair (Parker 4), Carolyn Genetti (Parsons), Lee Burtnam (Rand), Sue Pierce (Roger Bill), Liz Mackie (Small), Linda Harris (Turner), Margo Jennings (Whittier), Carol Barry (Wilson), Martha Ballard (Women's Union).

Spikers Look Good
by Sue Pellet

The Bates Varsity Volleyball Team wishes to extend a warm "thank-you" to the great crowd of people who showed up to watch us during our Invitational Tournament on Friday. Your enthusiasm really helped us during the 7½ hours of tourney play and we plan to carry that same Bates spirit with us as we continue our season on away game weekends. Bates plays in Augusta this Thursday and then travels for an overnight game at the University of Maine Orono Invitational Tournament on Saturday. Record for last week's games:

- Bates over FARMINGTON (2/0)
- Bates over MACHIAS (2/0)
- ORONO over Bates (2/0)
- Bates over MACHIAS (2/0)
- Bates over UNIV. of PRESQUE ISLE (2/1)

The season has just started, and Coach Gloria Crosby is confident that the same type of planning will insure an excellent showing in the upcoming State Tournament.

THIS IS HARRY FREELANCE HERE, REPORTING FOR WXYZ-TV... I AM HERE AT THE NOISIEST DORM ON THE BATES COLLEGE CAMPUS, TO ASK ITS RESIDENTS HOW THEY MANAGE TO LIVE WHILE ENDURING VIRTUALLY UNENDING NOISE!

YOU, SIR! HOW DO YOU GET ANY STUDYING DONE WITH THIS MUSIC BLASTING?

AH DON'T! HAVA BEER!

AND YOU, SIR? HOW DO YOU GET ANY SLEEP WITH ALL THIS.... THIS NOISE??

HOW ABOUT YOU, SIR?

WHAT NOISE?

HOW ABOUT YOU, SIR? I OBLITERATE IT !!!
